

10 January, 2022

From: [REDACTED] USN LCDR (SEAL) ret
To: President, SEAL Officer Selection Board,

Subject: RECOMMENDATION in Support of JONATHAN TIN for Basic Underwater Demolition/SEAL (BUD/S) Training.

1. Mr. Tin has my strongest recommendation for admittance and attendance to BUD/S Training at the soonest opportunity. For nearly two (2) years he has led his San Diego NSW/O Boat Crew (BC) in over 1100 hours of rigorous boat crew training culminating in the best physical screening tests (PST) scores among all candidates in the San Diego re-cruiting area.
2. As boat crew leader he has demonstrated excellent leadership and organizational skills. He remains calm and in control in all situations thrown in his and his boat crew's path. He demonstrates flexibility with constant vigilance toward safety. He 'earns' the trust of all Boat Crew members. He consistently thinks clearly and is able to distinguish the better choice in all situations, extremis or not. Adaptable, he anticipates change while motivating with empathy which wins the support of those under his charge. Always aware of 'team temperament' he remains out-of-self, continuously promoting the positive, no-matter the situation. Consistently flexible, he demonstrates an ability to think 'out-of-the-box' when necessary.
3. He leads by example maintaining his physical strength with PST scores always in the 'Elevated' category. His pull-up score remains unreachable within his BC. Having conducted over 21,000 physical screening tests and 'tens-of-thousands' of 'field training hours, face-to-face with prospective NSW/O SEAL candidates, Mr. Tin is a 'clear stand-out' among his peers. He exhibits the character traits, physical strength, motivation and the mental toughness required to accomplish the strenuous rigors required of BUD/S trainees.

Most Sincerely,

[REDACTED]

USN LCDR (SEAL) ret.

Ethical Decision-making

Truly Distinctive - Top 1%

Comments (Optional): Doesn't 'beat around the bush. Gets to the center of the situation ASAP.

Reference Questions

Please provide specific anecdotes and/or examples when answering the following questions.

Please describe your relationship to the applicant, and the circumstances under which you have known him/her. (300 words) *

Mr. Tin has been in charge and working with our San Diego Boat Crew (BC) as BC Leader since October 2020 racking-up over 1500 hours on-deck engaged in leading his team in the performance of a variety of physical activities. As the BC he is expected to perform to lead his BC in physical activity to include calisthenics, swims, runs, pull-ups, dips, soft-sand (long slow distance) and sprints. When he or his team did not perform to Spec-Ops standards, he was personally assigned/in-charge to ensure they worked to perform as required.

How does the applicant compare to his/her professional peers? (300 words) *

Mr. Tin was within the top five (5) percent of potential NSW/O Officers that come forward and work through our BCs here in San Diego. He is very respondent, in top physical condition and leads from the front.

Please share your perspective on this applicant's fit and potential for a career in the U.S. military/special operations. (300 words) *

Jonathan Tin did an exceptional job working with his BC. He is well educated and communicated very well with his BC and myself. Always on-time, ready to go, and able to get the job done. Ask if he thought a particular 'mission' was within the scope of his BC and himself, he was rational and quick to comply with a solid answer and/or a solution. He thinks on his feet; makes solid decisions in a timely manner.
